

# CNC501, 601, 803, 1003, B450, 802

External dimensions will be different according to the type of the servo motors. Dimensions with FANUC motor are shown. Please contact with us for CAD data (2D:DXF, 3D:PARASOLID).

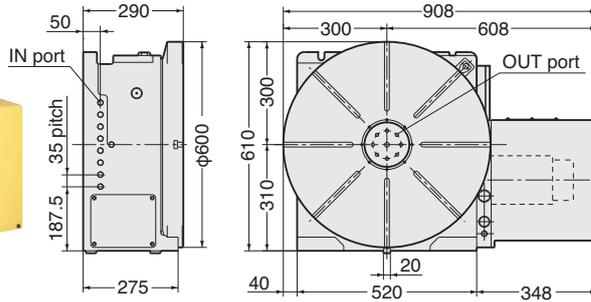

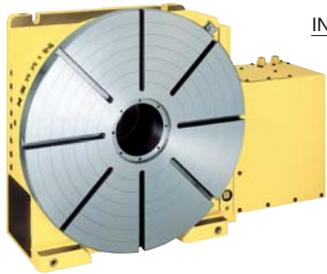

## CNC501, CNCZ501

★ Built-in type rotary joint can be mounted on **CNC501**, refer [P.54](#)

## CNC601, CNCZ601

★ Built-in type rotary joint can be mounted on **CNC601**, refer [P.54](#)

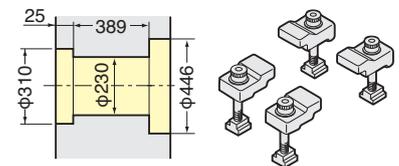

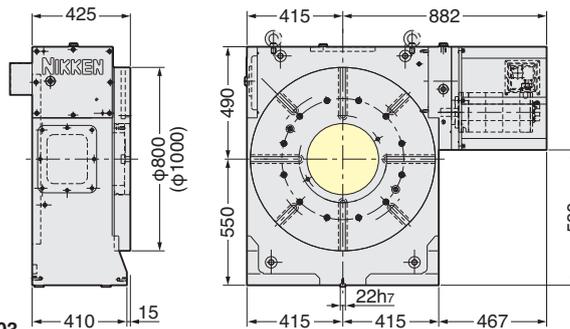

**CNC803B**

## CNC803, 1003 **NEW**

**CNC803** on which motor is mounted at back side, is available for the application on the pallet of the horizontal M/C.

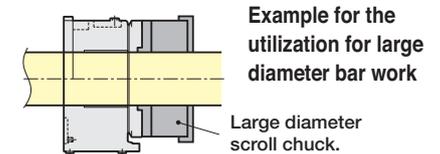

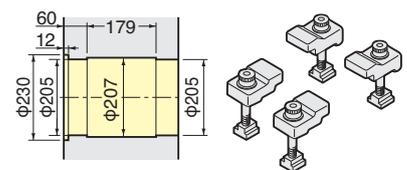

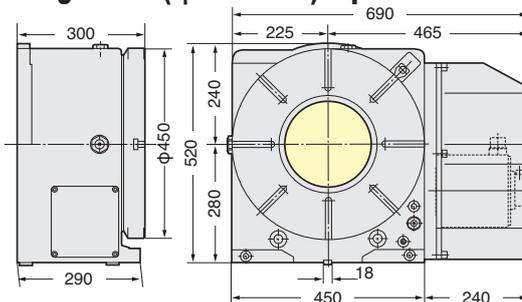

Photo shows **CNC803**.

## CNCB450

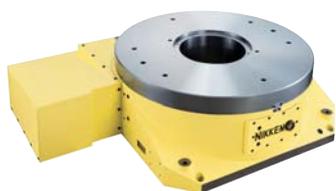

### Ultra Big Bore (φ205mm) Specification

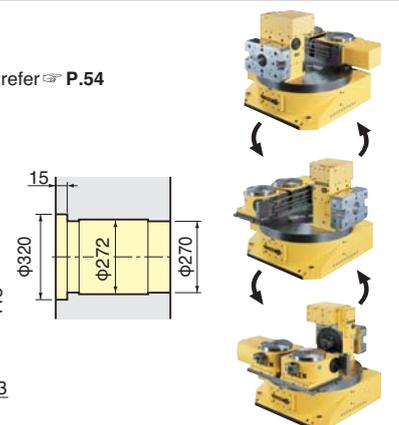

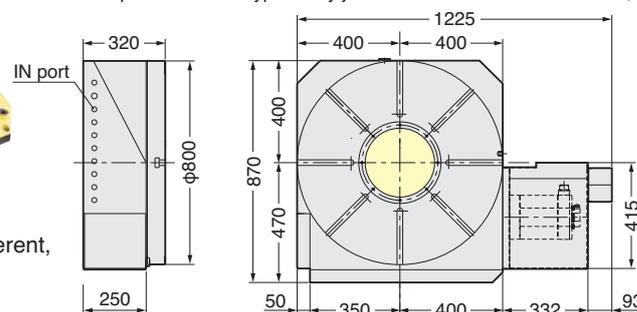

## CNC802 **NEW**

### Ultra Big Bore (φ270mm) Specification

★ 10 ports of built-in type rotary joint can be mounted on **CNC802**, refer [P.54](#)

The dimension of **CNC802** for vertical application is different, please contact us.

- ★ For accuracy standard, refer [P.51, 52](#)
- ★ For fitting metal and stepped guide piece, refer [P.22](#)
- ★ For scroll chuck, tailstock and other optional accessories refer [P.49, 50](#)
- ★ For the conditions of CNC table which is mounted on CNC special purpose machine, refer [P.59, 60](#)

T slot is available as an option.

**CNC802 + CNC260T, CNC260-2W**
