

# CNC ROTARY TABLE with $\alpha$ 21 CONTROLLER

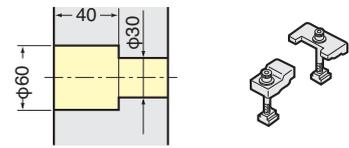

Dimensions with NIKKEN  $\alpha$ 21 controller are shown.  
Please contact with us for CAD data (2D:DXF, 3D:PARASOLID).

## CNC105AA21-04

**Powerful Brake**  
Brake Torque : 205Nm

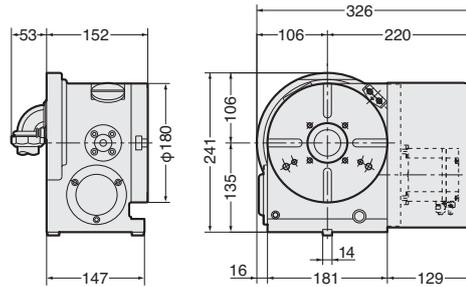

Air purge function is provided.

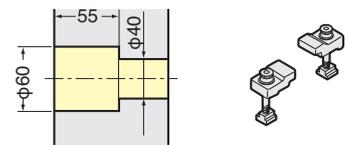

## CNC180AA21-04

CNC180AA21-04 (400W) is standard. CNC180AA21-08 (750W) and CNC180AA21-06 (High Torque) are available.

**Powerful Brake**  
Brake Torque : 303Nm

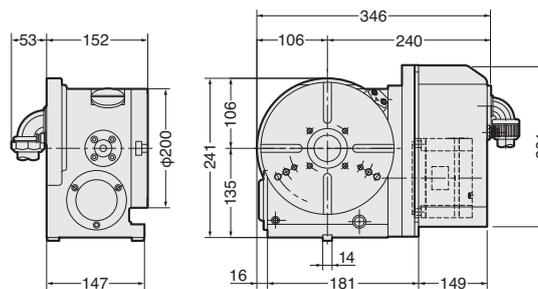

Air purge function is provided.

## CNC202AA21-08

CNC202AA21-08 (750W) is standard. CNC202AA21-06 (High Torque) is available.

**Powerful Brake**  
Brake Torque : 303Nm

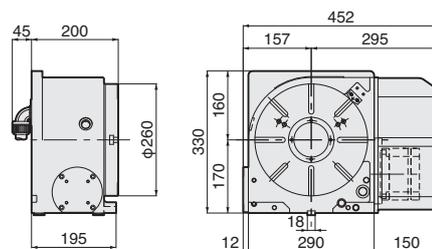

Air purge function is provided.

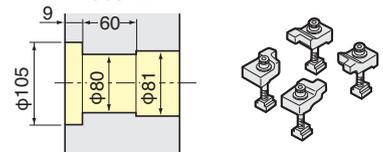

## CNC260AA21-08

CNC260AA21-08 (750W) is standard. CNC260AA21-06 (High Torque) is available.

**Pneumatic Brake Torque UP**  
588Nm

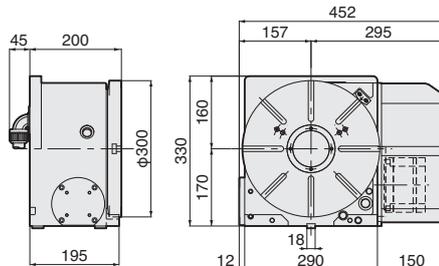

For the rotary table with pneumatic brake, air purge function is provided inside the motor cover as standard.

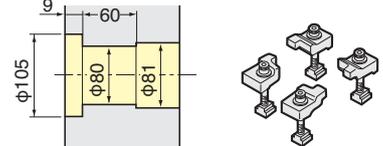

## CNC302AA21-08

CNC302AA21-08 (750W) is standard. CNC302AA21-06 (High Torque) is available.

**Pneumatic Brake Torque UP**  
588Nm

For the rotary table with pneumatic brake, air purge function is provided inside the motor cover as standard.

High speed rotation Z series is available for all models of CNC rotary table. e.g. CNCZ260AA21
